

ZebMed.com

Paramedic Supplies

ZebMed is a company run by working professional medical staff for medical staff and the general public.

All products have been tested either by Paramedics, EMT's, Doctors or Nurses.

One major difference between ourselves and other retail medical outlets is that we have much lower profit margins.

We also supply to ambulance services and mountain rescue teams. We can supply to any organisations or businesses. If you want to order in bulk quantities, then please contact us to discuss your requirements. We are happy to deliver worldwide, just contact us for a quotation.

To keep costs to a minimum, we do not produce glossy brochures. All images are for illustration purposes only. Colours and descriptions may vary. Prices include VAT, P&P details can be found on our website.
